

1 Academic Honesty Statement

I _____ understand that all work submitted by me for CS 480W / CS 580W should consist solely of my efforts performed within the constraints established for that submission. I also understand that any violation of this policy will be regarded as cheating and will result minimally in my receiving an F for the course. I also acknowledge having read and understood the Academic Honesty Policy for *this course*, the *CS department* and the *Watson School*.

I understand that if my submission explicitly acknowledges collaboration with another source, then the submission will not be regarded as dishonest and will be treated on a case-by-case basis.
